

Introducing a great new economical and easy to use online website creation tool from IntouchMI.com

Have you priced a "custom" built website for your business lately? With prices ranging into the *thousands of dollars* it's quite a burden for many businesses to handle. With our new SITEBUILDER software and easy to use interface, you can have a customized website for your company in a *matter of minutes*.

Does your company already have a website that is need of updates, modifications, or just plain re-vamping? That will usually *cost you as much as, if not more than, starting from scratch!* Not with our new SITEBUILDER software! Build your new site and get it ready to publish before taking down the old one if you want to.

Have a new product to feature? Running a special this month? Add it to your website! Our on-the-fly design interface allows you to continue to customize and update your website *without experiencing downtime*.

Can you, or someone else in your company, use Microsoft Word? Creating a website with our new SITEBUILDER software is as *EASY AS THAT!* No "languages" to learn, no additional college degrees required! Just log-in to your account, and *enter the information you want on your website!*

Don't want to pay thousands of dollars for a website? Don't worry! Our SITEBUILDER software is *affordable*. We offer great low setup fees and *manageable monthly pricing* for our software. We even give you a *discount when you pay for annual service!*

Do I have to be a "Company" to get a website? Heck No! Our SITEBUILDER software is so affordable, anyone can have a website for whatever they want. Want to share photos with the family...Create an online photo album! Graduating from College...Post your resume online!
